CALIFORNIA AND NEVADA.

PROSPECTS OF THE OPPOSITION OCEAN LINE.

Arrest of Thieves and Robbers.

SAN FRANCISCO, Oct. 31.—It is probable the railroad disagreement as to the question of fares has given rise to the rumors of a change in the attitude of the Central Pacific relative to the northwest trade, among which is the report of a new line of steamers running between Portland and San Francisco in the interest of the above road. There is no disguising the fact that considerable feeling has been engendered by the position assumed by the Northern Pacific in relation to this market, and the trade of southern Oregon generally, while it is conceded on all sides that competition for California trade between the Northern and Central Pacific would lead to a war attended by no profit to the roads involved. Fred. Crocker in conversation to-day relative to the view the Central Pacific takes of the reputed aim of the Northern Pacific to enter into competition for California business stated that should it persist in coming into territory other than its own the Central would devise effective measures to check it, and thereby protect itself.

VIRGINIA CITY, Nev., Nov. 1.—In order to test the statement of Treasurer Nevin, whose vault was robbed of seven thousand dollars on the night of Oct. 30th, that the lock did not act, the lock of the Yale Lock Co. was set set for six o'clock and when the hour arrived it was found the time lock would not work. Two more trials were given with the same result. The robbery continues to create much excitement. A large reward has been offered for the capture of the robbers.

Thomas McDonald and James R. Dolian, accomplices of Leroy who murdered Nicholas Skenett last August, have been captured by Chief Detective Capt. Lees. Both men made a confession of their going with Leroy but claim to have had no hand in the murder. Their confessions will be read to Leroy to-day to see what he has to say about them.

SAN FRANCISCO, Nov. 1 — Miss Sarah Anthesa Hill, who claims to be Mrs. Sharon, has brought suit in the superior court against Senator Sharon for divorce, a division of the alleged community of property and alimony. Miss Hill alleges that she was married to the Senator on August 25,1880, and that they lived and cohabited together up to November, 1881, when he deserted her. She charges Sharon with repeated acts of transgression. She says that when she married Senator Sharon he was deeply in debt and had not in money and property more than five millions, but that since their marriage by prudent management of mines, fortunate speculations, manipulations of the stock market and business enterprises, they had accumulated in money and property more than ten millions, so that now defendant has in his possession or under his control money and property of the value of at least fifteen millions. She asks that an account be taken of all business transactions since their marriage to ascertain the amount of their common property, so that the same may be equally divided between them.

DR. COOPER'S VEGETABLE LIVER-WORT AND KIDNEY CURE

Has no equal as a safe remedy for all diseases of the liver, kidneys and urinary organs. Over 250,000 bottles sold during 1882. Price $1 a bottle. MOORE & Co., sole agents. dw

IF you are a professional man, an editor, lawyer, clergyman or doctor, so thoroughly overworwked that now every mental effort is attended with a sense of weariness, followed by headache and more or less severe nervous prostration, take a dose of DR. AUSTIN'S PHOSPHATINE along with your meals for a week or two and we are certain it will relieve you. For sale by all druggists. dw

THE GREAT SECRET OF BEAUTY lies not in the enamellers or the tonsorial art, but it depends upon good health, a fair, brilliant complexion, rendered so by pure blood. Burdock Blood Bitters purify the blood, cure Scrofula and all diseases of the Blood, Liver and Kidneys. 25,000 bottles were sold during the last three months. (22)

A SURE CURE FOR COMPLAINTS —Procure from your druggist one 37½ cent bottle of Dr. Fowler's Extract of Wild Strawberry, and use according to directions. It is infallible for Diarrhœa, Cholera Morbus, Canker of the Stomach and Bowels, and Cholera Infantum. (21)

OF far more importance than the National Policy or the Irish Question is the question of restoring health when lost. The most suddenly fatal disease incident to this season are the various forms of Bowel Complaint, for all of which Dr. Fowler's Extract of Wild Strawberry is a specific. (20)

CUITEAU'S SKELETON.

The Assassin's Bones and Face on Exhibition in a Medical Museum.

The skeleton of the late Charles J. Guiteau, the assassin of President Garfield, having been formally turned over to the surgeon general, is now exhibited in a upright glass case situated in the North end of the Army Museum Hall, on Tenth street, says the Washington *Gazette*. A reporter, having received a "pointer" to the above effect, started off to the museum to investigate the matter. Passing by large cases full of skulls, arms, pickled babies, and other curiosities of humanity, the upright case was finally reached. It was perfectly new and glistened under a recent coat of shining varnish. The interior was decorated with hangings - four human skeletons suspended by their skulls and glistening in their snowy whiteness. The two largest, one of which is Guiteau, bear no labels. The smaller ones were placarded the "negro girl" and "skeleton of a boy." Of the former that of the assassin can be easily distinguished by its height. Guiteau was 5 feet 9 or 10 inches. The skeleton corresponds with those figures. The purpose of putting other skeletons in the case was doubtless to prevent suspicion. A close scrutiny of Guiteau's bones showed that each distinct portion had been worked with a very small letter "D" in indelible ink by the museum authorities, probably as a means of identification in case they are ever stolen. Another noticeable feature was a slight stoop of the shoulders, which those who saw the man will recognize at once.

The reporter turned to the gentleman who gave the information and asked where the head was kept. "The head was skinned after the autopsy," he replied. "It was then stuffed, sewed up and pickled in alcohol, and is now in this building. Would you like to see it?"

The reporter replied affirmatively, and was taken to a room in the northern portion of the museum, where he was shown the head that planned the second presidential assassination in the United States. The preservation was remarkable, and showed the perfect expression of Guiteau's face as he dropped into eternity with the final words of the doggerel hymn on his lips.

"What was done with his flesh?" queried the reporter. "Was it thrown into a sewer, as published?"

"No, it was not," he replied. "Guiteau's flesh was cremated in the building at noon of Nov. 27, 1882, after it was stripped from the skeleton."

"How?"

"It was shovelled into the furnace below, and the ashes of the assassin now grace some ash dump in the suburbs of Washington."

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skilful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to suffering humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it. dw

NEVER undertake a journey without a bottle of Dr. Fowler's Extract of Wild Strawberry in your travelling case, to guard against sudden attacks of Colic, Cholera Morbus, Diarrhœa, Sick Stomach, Sea Sickness, and troubles incident to change of climate, water, diet, etc. It is a ready and reliable relief. (23)

D. MCCRIMMON, of Lancaster, writes that he has suffered with inflammatory rheumatism, more or less, from childhood, and had tried nearly all advertised remedies with but temporary effect. Burdock Blood Bitters have radically cured him, and he authorizes us to say so. (19)

THE STRAITS CABLE.

We have over and over again advocated the laying of a submarine cable across the straits from a point in the neighborhood of Race Rocks to a point nearly opposite on the American side of the straits. The soundings for a cable in that vicinity were taken more than two years ago, and the results could not have been more favorable. Last year the sum of $18,000 was voted by the Dominion parliament to lay the cable and make the connection. It was afterwards given out that a cable would arrive here in September. November has been reached and the cable, for aught we know to the contrary, is still unmade. However, the public must live in hope that the alternate line via the straits will shortly be secured. Dependence on the present line, particularly during the winter, has been shown by years of experience to be most unwise. The existing line from Victoria to Seattle, which runs via Nanaimo, Point Grey and New Westminster, is fully 100 miles longer than the old route via San Juan and other islands. Much of it passes through forests where from fire in the summer and storms in winter frequent interruptions occur. The line is often very difficult to repair—during fires impossible. If a straits cable should be laid it will be of little use to Victoria as a commercial line, if laid (as has been suggested) near the mouth of the straits from Point San Juan to Neah Bay, for the simple reason that it will require land lines on both sides of the straits to connect with it, which lines must of necessity be through an unsettled country where there are no roads, and through dense forests where breaks must be frequent and repairs exceedingly difficult and tedious. Whereas, with the original plan of carrying it across from Race Rocks to Port Angeles, or some place near, greater facilities would be obtained for doing business in connection with the American system, while the land lines on each side of the straits could still be used for the benefit of shipping, without it being at all necessary for the Victoria business to pass over them. In view of the probable increase of business consequent on the completion of the Northern Pacific Railway, a straits cable is more of a necessity than ever. The headquarters of the British Columbia telegraph system should be in Victoria. It could easily be fixed here and still retain connection with the mainland through Canadian territory, while the southern business would avoid the delays caused by the frequent interruption of the line between the boundary at Sumas and Seattle, which is a hard line to keep in repair, and which was the cause of the greatest delays to business during the past summer. These views have been frequently urged on the Dominion government, and Mr. Giscombe was understood to have given them his approval; but why the first step to carry them out has not been taken is a conundrum which we hope soon to hear answered.

ONE EFFECT OF THEIR PRESENCE.

The Seattle Post-Intelligencer extracts a lesson and a moral for its own citizens from the following paragraph clipped from a San Francisco paper. It would not be difficult to make a similar application in this city. "They (the Chinese) are slowly but surely absorbing Sacramento street, between Dupont and Stockton; they have gained a sure foothold on Clay street, as far up as Powell, and they have recently opened four barber shops in the block of Waverly place between Sacramento and Clay streets. Wherever they gain a lodging other tenants leave in a short time, and property depreciates one-half. Ten years ago Stockton street, north of California, was one of the pleasantest residence streets in the city, as it contains a fine view of the harbor and is easy of access. Now it is almost wholly given over to Chinese, who have turned several fine old residences into lodging houses and cook shops, offensive to sight and smell. Property owners ought to exercise a little common sense in this matter and not allow a high rental to tempt them to admit Chinese into their premises. It has been the same old story—big rents for six months or a year, until they have driven other tenants out, and then a return to rates far below the original prices received."

LORD LORNE.

So it would appear that Lord Lorne is still interesting himself in behalf of Canada. His article in the London Times on Victoria's "greatest colony," as he terms the Dominion, will be read with eager interest. The late governor-general may not be as brilliant a diplomat as his immediate predecessor, but he is as industrious and much more earnest and true. We happen to know that Lord Lorne has never ceased to refer to British Columbia as the most delightful and interesting province of the Dominion; that he took a leading part in the negotiations between this government and that of the Dominion when the Settlement Bill was on the *tapis;* and that after arrangements were finally completed and the Island railway, the drydock and the land policy had been rendered secure he wrote several congratulatory lettres to leading gentlemen here, in which he expressed the belief that the future of the Pacific province would be bright and unclouded. Yes; Lord Lorne is an able statesman and a true friend, and British Columbians will ever have deep cause to recall the visit of himself and his royal spouse with feelings of unalloyed pleasure not unmixed with gratitude.

THE BACHMAN FAILURE.

ARREST OF J. BACHMAN ON A CHARGE OF LARCENY.

Curious Complications with Insurance Companies.

The Oregonian says that J. Bachman, of the firm of Bachman Bros., who lately failed in Portland, has been arrested on two charges of larceny. As the case develops further disreputable conduct is brought to light. In addition to a large insurance business for the seven companies which they represented, the firm did an extensive brokerage insurance business. That is to say, they took a line of insurance too large for their own companies to carry, and reinsured the surplus in other agencies. Premiums due Dobinson's agency for reinsurance are reported at $2,500 and Laidlaw's $1,600. All this money the Bachmans have collected from the policy holders and failed to turn over to the companies. A policy on the State Investment (premium $80) was issued to a Front street firm early in July. Bachmans were paid and gave a receipt September 1st. This premium, though four months had elapsed, has never been paid to the company issuing the policy. Litigation is certain to result from the complications. The insurers claim that not having received a consideration they are not required to give protection and may cancel the policies. Bachman, they claim, was an agent of the insured, and the insurer, as principal, is liable for his acts so far as it relates to the placing of that particular insurance. On the other hand the policy holders claim that the policy itself is evidence of payment of premium and the customary credit of thirty or sixty days is only an accommodation by the agent to the insured, and the premiums become a debt of the firm to the agent personally. Another claim of the insured is that the companies which issued the policies should have used diligence in reporting to the policy holders that premiums had not been paid and should not have let matters run on indefinitely.

AN INTERESTING YOUNG FEMALE

Kills a Rich Young Englishman and Appropriates His Cash, Jewelry and Sheep.

WICHITA, Kas., Nov. 1.—Nellie C Bailey, a young woman charged with the murder of Clement Bothelmy in Indian Territory, was held to-day by the United States Commissioner for appearance at the next term of the United States circuit court at Wichita. She is 21 years old, a handsome brunette, well educated and moved in the best society in New York and New Jersey. She met Bothelmy, a rich Englishman, at St. Louis, and arranged with him to go to Texas and start a sheep ranch. Before they started she got the deed of his lands in Kansas, valued at $20,000, and while passing through Indian Territory en route for Texas shot Bothelmy through the head and took possession of his trunk, containing diamonds and jewelry worth $7,000, together with his outfit, consisting of sheep and stock worth $10,000. She buried the body at Skeleton ranch and started south, but was arrested about nine miles from where the murder was committed. The case was worked up by the United States Marshal.

Hard on a New York Heiress.

The imperfection of our divorce laws was recently shown by a case of peculiar hardship. Something over two years ago a New York heiress married in this state a citizen of Montreal, where the young couple went to live. Immediately after the marriage the wife handed over to her husband more than two-thirds of her fortune of $300,000. Afterwards the wife becoming aware of her husband's misconduct, sued for and obtained a divorce in the New York supreme court, the defendant making no opposition and returning a portion of plaintiff's fortune. This, however, was not satisfactory to the divorced wife, who brought suits in the Canadian courts for a return of the entire sum, $220,000 which she had given him, or an account of what he had done with it. This action has just been decided in favor of the defendant, on the ground that the plaintiff is still his wife—the Canadian decision thus admitting the validity of the New York marriage, but refusing to recognize the New York divorce. By taking up her residence in this state of course the plaintiff can enjoy the anvantages of her judicial release from her husband, but at the cost of nearly all her fortune.—*The Hour.*

THE EXPLOSIONS.

What London Irishmon Say of Them.

LONDON, Oct. 31.—The explosions have caused intense excitement in Irish circles in London. The Irish almost unanimously think the outrages were due to the deliberately planned machinations of the enemies of the National party in Ireland, who intend to create an anti-Irish feeling in England. It will be next to impossible, they think, to have a perfectly impartial jury to try O'Donnell. It is also remarked that the explosions occurred about the moment when Davitt was opening his address in St. James' Hall. It is stated that the police are unaware of the presence in London of any of O'Donovan Rossa dynamiters. However, all the Irish rendezvous are closely watched.

A Good Play

Is now before the public with every assurance of success. The actors are well up in their different parts, and as perfection is their motto, they will use their best efforts to please. The place of attraction is on Johnson street at the headquarters of A. Gilmore, the Pioneer Tailor and most extensive dealer in clothing in British Columbia. He has just opened and now offers for sale the most complete line of Clothing and Waterproof Goods ever imported by him. A full assortment of men's and boys white and colored shirts in great variety. All of these goods will be sold cheaper than ever before offered. Garments made to order and a perfect fit guaranteed. Come early, admittance free.

CURTIS'S & HARVEY
Have much pleasure in directing the especial attention of their friends and customers to the fact that the members of both British Teams
USED THEIR NO. 6 GUNPOWDER SOLELY.
This fact affords distinct proof of the estimation in which this Gunpowder is held, both for regularity and accuracy.
Copy of a letter received by CURTIS'S & HARVEY from Sir Henry St. John Halford, Bart., relative to their No. 6 GUNPOWDER, which was exclusively used by the British Team in the recent match at Wimbledon, between them and the National Guard of America, in which the former were victorious:—
WISTOW, LEICESTER, July 30, 1883
GENTLEMEN:—The British Team of Volunteers all used your No. 6 Gunpowder in the recent Match between them and the National Guard of America, and I believe some of the American Team also used it, as well as all those shooting with the Match Rifle. It is too old and well-known a brand to require much praise, but I believe it to be unequalled for cleanliness and regularity of manufacture by any other make in the world.
I am, yours faithfully,
H. ST. JOHN HALFORD.

In this city, on the 2nd Nov., Jessie Burnie, the beloved wife of Rev. R. H. Smith, a native of Newmarket, Ontario, aged 45 years.

The funeral will leave her late residence, Pembroke street, at 2 o'clock p.m. on Sunday, and from the Methodist Church at 2:30 o'clock. Friends are respectfully invited.

On Nov. 1st, George J., infant son of George and Margaret A. Mills, aged 10 months.

The funeral will take place from the residence of his father, North Saanich, at 1 p.m. on Sunday, 4th inst. The remains will be taken to South Saanich Cemetery. Friends and acquaintances are invited to attend.

What Some People Say.

That our esteemed morning contemporary aims to tell the truth; but he is probably the worst shot in the province.

That church music is not difficult to a choir.

That funeral music should always be rehearsed.

That Sampson with all his muscle never lifted a mortgage.

That dudes who chew the heads of their canes are advised by a medical editor to have the same of soft rubber instead of silver. It makes less wear and tear on the gums and helps the teeth to come through just as well.

That J. F. Mellis of Mellis Bros., Portland, died at Oakland, California, on the 1st.

That a Philadelphia man kicked his wife to death because she beat him at croquet. She should have known better. Wives should always allow their husbands to beat them.

That Clifford Lloyd has got the cholera in Egypt.

That the Princess of Wales is deaf.

That Berlin ladies have resolved not to buy dresses in Paris.

That Truth says the Princess Louise had been so long accustomed to the slavish adulation of a shamefully servile society that she was as much out of place in Canada as a reindeer in Central Africa, or camels in St. Petersburg.

That Mr. W. K. Bull will shortly deliver a lecture on "current events" before the mechanics institute.

That Mr. Carl Strouss sails for England on Monday.

That Victoria Chinamen have paid $3000 in school tax for the current year.

That ex-Supt. of Police O'Connor has married and settled for life at San Francisco.

That the daughter of a Texan cattle king has just returned from Paris, where she says she walked through the Tooralooral and visited a shottoe, where she saw the statues of Physic and Catherine de Medicine.—*Exchange*.

That an old farmer in Texas having said at a church meeting, "I have belonged to the church thirty years, and, bless the Lord, it has never cost me a dollar," the good preacher arose and responded, "The Lord bless your stingy old soul."—*Exchange*.

That "Papa, what do you expect to give me for a birthday present?" asked a young girl of her father, a well-known police court justice. "Give you," said the justice, whose mind was evidently upon something else—"give you—I'll give you six months."—*Philadelphia Call.*

That at Peter's Market, rear of Queen's Market, Johnson street, may be found every seasonable delicacy. Economy and cleanliness are the watchwords at Peter's.

Real Estate.

Transactions in city property of more or less importance continue to be reported. Two acres of Mr. J. D. Pemberton's farm, near Government house, have been sold at $900 an acre. Two lots on Richardson street which were sold three weeks ago for $400 each, were resold yesterday for $1200. Last night it was reported that the warehouse and wharf of Dickson, Campbell & Co. had been disposed of for $22,000. The building and wharf were erected in 1862, and cost in those dear times a very large sum.

A STRANGE CIRCUMSTANCE.—The United Service Gazette of October 6th has the following: "An outrage was committed on Thursday night at Shorncliffe Camp. The harness belonging to T battery Royal Artillery, at Shorncliffe, was cut to pieces by some person unknown. The damage is estimated at £200. No cause can be assigned for the outrage"—nor apparently for the soundness with which the sentries must have slept on their posts.

Supreme Court.

[Before Sir M. B. Begbie, C. J. and Justices Gray, ——, McCreight and Walkem.]

FRIDAY, Nov. 2.

The court was occupied the entire day in hearing the appeal of George Hampton against an order of the Hon. Mr. Justice Crease, cancelling his pre-emption record of section 9, range 1 U., Salt Spring Island, containing 114 acres and directing the name of Henry Sampson to be placed upon the record as owner in lieu of the appellant.

Mr. T. Davie appeared for the appellant, Hampton; and Mr. Drake for the respondent, Simpson.

It appears that Sampson pre-empted the land in 1864, but that in 1882 the chief commissioner of lands and works, upon evidence that Sampson had abandoned his pre-emption, cancelled Sampson's record under clause 10 of the Land Act, 1875, and recorded the same anew in favor of Hampton upon his compliance with the terms of the act, whereupon Hampton entered into possession and paid an instalment of the purchase money.

Sampson disputing the validity of the cancellation of his record, had entered upon the land and exercised rights of ownership, and in January, 1882, Hampton brought an action of trespass against him which was defeated on the ground that Sampson's record had been voided without notice to him, and by means of false evidence given to the commissioner.

Pending the trial of the action Sampson presented a petition to Mr. Justice Crease, upon which the learned judge had made the order now under appeal, holding that Sampson's rights were governed by the Land Proclamation of 1862, which authorizes a judge of the Supreme Court, upon petition, to amend the action of the commissioner without limit of time.

The Land Acts of 1870 and 1875 repeal the Land Proclamation of 1862, and section 58 of the Act of 1875 precludes any review of the chief commissioner's action after thirty days.

Mr. Justice Crease had not heard the evidence of the parties, but based his decision upon the evidence afforded by the records of the land office solely.

The court held that Sampson, proceeding by petition against the decision of the chief commissioner cancelling his record, was governed by the act of 1875, and that his petition not having been brought within thirty days from the cancellation the judge had no power to make an order under it as the clause in the Proclamation of 1862 respecting method of procedure only fell with the repeal of the proclamation, both as to rights acquired before and subsequent to its repeal, and, moreover, that the order in question proceeded without evidence, and its effect was to wrongfully preclude a trial of the action of trespass in which the validity of the plaintiff's title was distinctly raised for decision.

The court quashed the order appealed from with costs of the appeal in favor of the appellant.

FRIDAY, Nov. 2.

THE LICENSE CASE.

The case of Richard Glenn, adjourned from the 25th ult., was continued. The defendant was charged with selling liquor without license.

Mr. Downey (Drake & Jackson) appeared on behalf of the city and Mr. C. Wilson for the defense.

On the application of Mr. Downey the matter was adjourned one week to enable Mr. Drake to be present.

MURDER.

The case of Ah Sue, charged with the murder of Ah Fook at Cook's Ferry, was continued.

Mr. C. Wilson prosecuted and Mr. Downey appeared for the defense.

Mr. Wilson produced a letter showing that certain witnesses required to know when they should attend, and asked for an adjournment thereon.

Mr. Downey stated the prisoner was at New Westminster on August 13th. He was there three weeks and two days, and went thence to Nanaimo. This could be proved by Chinese witnesses.

The prisoner was remanded till next Thursday.

The World's Champion.

The announcement made through our exclusive dispatches yesterday that Edward Hanlan, the champion sculler of the world, is coming to the Pacific coast and will visit Victoria, has already caused a flutter in aquatic circles in this city. Hanlan while in California will row Stevenson, the sculler, whom our Wm. Cotsford was "getting away with" two summers ago when Cotsford's boat was upset and he was dumped into the drink. Hanlan will have an easy victory over Stevenson, unless the latter has improved greatly since his trial with Cotsford. Cotsford's friends are confident that should the champion visit Victoria their favorite will prove the toughest antagonist Hanlan has yet met. Victoria harbor, Esquimalt harbor and Saanich inlet are all spoken of as a probable course.

SCOTCH HOUSE,

ESTABLISHED 1862.

A. McLEAN & CO.

Have received a choice assortment of goods for the Winter and Fall trade, comprising in part: Men's and Boys' Clothing, Underclothing, Shirts, Hats, Gloves, Waterproofs. Men's Overcoats in great variety, Scotch Tweed Suits, Boys' and Children's Ulsters, etc., etc.

We beg to call special attention to the superiority of our present stock of Clothing, having purchased in the best English and Scotch Markets. We are the only house in the province that import these goods, which are acknowledged by all in the trade to be superior to any Canadian Clothing. 3m

RUNAWAY. — Yesterday morning a horse attached to a vehicle ran away from Pandora street and after leisurely proceeding up some streets and down others, finally bolted for that favorite equine resort, Beacon Hill. The wagon was somewhat shaken but the horse felt better.

CHEMAINUS MILL.—Messrs. Croft & Severne, who some time since purchased the Chemainus Mill, have recently imported a very neat vertical engine and boiler by H. P. Gregory & Co., San Francisco, adapted for a steam launch or small tug suitable for lumbering purposes.

THREE-STORY BRICK.—Mr. Architect Trounce calls for tenders for the construction of a 3 story brick building on the N. E. corner of Broad and Broughton street, for Mr. John Weiler, to be used as a furniture manufactory.

Norwegian barque Jorsalfarer is loading at Liverpool by R. C. Janion & Co. for Victoria.

Barque Jessie Jamieson, from Liverpool for Victoria with a cargo of general merchandise consigned to Robert Ward & Co., has put back and will have to be docked.

To-day at noon the steamship Geo W. Elder will sail from the outer wharf.

The British bark Rowland Hill, wooden, 856 tons, arrived here yesterday from Port Moody, B. C., in ballast. She arrived there September 27th from Cardiff with rails for the Canadian Pacific, discharging cargo day and night, took in ballast and hurried to this port to save her charter. She saved it. Her charter partly varied from the usual form and contained the following clause: "Unless the vessel is ready to receive cargo by sunset on the evening of October 31st the charterers shall have the option of canceling or maintaining the charter party." She arrived here at 9 a.m. and sought berth at Flanders dock. There being no room for her there, she was towed without delay to the American Exchange dock at the foot of Madison street, reaching there about noon. A big gang of men were set to work lining her, while a donkey engine was brought alongside and the work of discharging ballast began. At 4:15 the master sent word to the consignees, Taylor, Young & Co., that the ship was ready to receive cargo. The Rowland Hill was chartered prior to arrival by a San Francisco firm at 60s. A good rate to-day would not be more than 42s. 6d for a soft wooden ship. Thus the saving to the ship's owners was between $5000 and $6000, and they hadn't two hours to spare. Another vessel, the Harry Bailey, 713 tons, from Buenos Ayres, chartered by the same firm, at the same rate, loses her charter, the limit having expired yesterday.—*Oregonian*.

Ship Gettysburg, lumber laden for the Cape, goes out to-day.

Steamer Barnard Castle passed up to Departure Bay yesterday morning.

Inquest on the Body of John Anderson.

Yesterday at 1.30 p. m. the adjourned inquiry into the death of John Anderson was continued before Coroner the Hon. A. F. Pemberton at the city hall. Dr. Jackson expressed the opinion that deceased had come to his death by bruises or contusions he had received on the head, which it was possible he might have received by falling from a buggy. The examination of Martha Dolbery gave the facts that she and deceased had driven round that night in a two wheeled spring cart that capsized the last time near Beacon Hill, when deceased was apparently much hurt and carried to her house. Dr. Trimble was summoned but did not come. She then called on one of the nightwatchmen, who arrested her. A sailor stated that he and his shipmate found the buggy upset on Humboldt street and the deceased lying on the ground. At this stage the jury expressed the opinion that no further evidence was necessary and returned a verdict that deceased came to his death through a fall from a buggy.

Oliver Twist.

The first production of Dickens' most celebrated play was witnessed last evening at the London Theatre by a most appreciative audience. The interest of the drama centred in Nancy Sykes, played by Miss DeLome, and we can safely affirm that it could not have been placed in better hands. Her acting was strong and intense, and in the last scene in which she struggles with Bill for her life her rendition was simply grand. The rest of the characters were well sustained. To-night will be the last chance of seeing this highly interesting play.

DEATH OF AN ESTIMABLE LADY.—The death of the wife of Rev. R. H. Smith is announced. The deceased lady expired early yesterday morning after an illness of only three days. Until a short time before her death, she was not regarded as in immediate danger. What renders the event more than usually distressing is the fact that Mr. Smith is himself confined to his bed by a severe cold. Mrs. Smith leaves, in addition to her sorrowing husband, three children to mourn their great loss. The funeral will take place on Sunday from the family residence and subsequently from the Wesley church.

ST. ANDREW'S CALEDONIAN SOCIETY.—The following officers have been elected for the ensuing year: President, Alex. Allan, Esq.; vice president, John Ore; second vice president, A. Grive; treasurer, Donald Mackay; secretary, Jas. Russell; assistant secretary; Robt. Mitchell; chaplain, Rev. Mr. Stephens; physician, Dr. Milne; warden, Thos. Gorrie; assistant, Thos. N. Innes. Directors, Thomas Russell, John Stewart, R. P. Rithet, W. Lorimer, John Ross, James Crawford, J. H. Lawson.

HALIBUT FISHING.—Mr. J. C. Seeley has a contract for building a number of dories for a company who will embark in the halibut fishing business. They have a process for keeping the fish fresh and intend to export them to San Francisco where they are in great demand.

SAFELY ON BOARD.—Yesterday morning the second boiler for the steamer Princess Louise was placed safely on board that vessel with the aid of the Hudson Bay Co.'s shears.

CROSSWALKS.—The condition of the crosswalks is not creditable. Before the next rains come there should be an effort made to put them in good order.

THE funeral of the late Thomas Pritchard will take place this afternoon at 2:30 o'clock from his late residence and half an hour later at the Quadra street cemetery.

LACROSSE.—There will be a game of lacrosse at Beacon Hill at 3 o'clock this afternoon.

COAL.—Seattle shipped 173,204 tons of coal in October.

PAPER HUNT.—The meet this afternoon will be at Stadacona at 3 p.m. sharp.

Powder Magazines.

In Quebec and, we think, the other provinces, the provincial governments build magazines and provide for the storage of explosives therein. The spots selected for magazines are always remote from populous districts, so that, in case of disaster, the loss of life and property would be reduced to the minimum. Here, however, private magazines exist at the four points of the compass, and an explosion is likely to occur at any time through accident or design. If the present agitation shall prove the means of inducing the local government to bring in a law regulating the storage of explosives it will not have been created in vain.

HORRORS IN HAYTI.

Cannibalism Said to Prevail with Other Horrible Customs.

(Home Journal.)

We left Jamaica, however, in late July or early August, and steamed across through indigo seas to Jacmel and other Haytain ports, making the circuit of the entire island, shooting into sheltered harbors here and there.

Nearly always the mountain lay like great iridescent lizards against the horizon—monstrous saurians sprawling in blue or in bronze green against the edge of the sky; singular and fantastic mountain piles, in whose gorges the half wild negro tribes live and swarm.

The infamies said to be practised by this population are beyond description. Cannibalism is said to prevail, the white man is held in the greatest abhorrence, and we heard of the rooted determination of the jet blacks to exterminate the yellow skinned, feeble mullato castes of the seaports. Our captain warned us not to spend the night on shore in any of the ports we visited, for fear of personal violence or simple maliguity. The island is pretty thickly peopled, and is divided between the Haytians of the west and the light skinned, intelligent, French-speaking San Domingoans of the east.

The greatest dissimilarity exists between those geographical divisions. The San Domingo people are full of energy and push, eager for railroads and telegraphs, enlightened, and more or less civilized. The Haytians are reported by those who know them intimately to be savage, depraved, opposed to every form of white civilization, and devoured by the most baleful vices and diseases. They speak a French jargon very hard to understand, a lingo made up of lacerated French conjunctions and genders, plentifully sprinkled with words of their own coinage. There are peculiar horrible maladies prevailing among them; their sense of decency is of the slightest, and their reputation for trickery is such that we have had to guard ourselves constantly against their cunning and fraud.

The country is one of striking loveliness, a flower-garden stocked with the rarest growths. We saw the finest growths of rosewood and mahogany woods smothered in imperial vines, an atmosphere laden with suggestions of blossoming spices; but to get to all this, nothing but difficult bridle paths or inaccessible lanes, with here and there a road wide enough for a carriage. We met troops of silent, malicious-looking, oblique-glancing blacks as we road on horseback or wandered through the towns, creatures that gazed with amazement and horror to see whites invading their domains. One old woman riding on a horse was so startled by our cavalcade that she forgot herself and was suddenly taken under the chin by an over-arching limb, lifted off her animal and deposited not very gently on the ground below, to the infinite amusement of the party.

It was painful and shocking to hear the stories of Haytian depravity to which we had to listen—the foul superstitions, the rank barbarism, the total illiteracy and indifference to education prevailing in the country. We were told that a traveller had discovered human flesh for sale at one of the markets of the interior, and had bought a piece of it to bring away with him as a curiosity and as evidence of the state of things there.

Witchcraft, voodouism, and nameless immorality are rampant. If there is any Christianity, it is of the lowest type. The grossest corruption festers in the municipal organization and in the administrative scheme, if there is anything that can be called such.

OTTAWA SOCIETY SHOCKED.

A Sentimental Girl Elopes With an Actor.

CHICAGO, Oct. 26.—The Tribune's Ottawa special of October 25th says: For the last few days rumors have been current in this city concerning a social scandal which has caused no little excitement. About ten days or a fortnight ago, a young and charming damsel, daughter of a well-known contractor of this city, became enamored of a handsome young actor whom she had seen on the stage at the opera house. Her good looks seem to have attracted his attention and an acquaintance resulted within a few hours after their eyes met. The knight of the buskin remained in the city for several days and made such good use of the time at his disposal for wooing that he induced the girl to accompany him from the city. The arrangements for their departure were carried on with the greatest secrecy and the young lady in question was across the border between Canada and the United States almost before her absence from the city had been discovered. It is said that, acting in the style indulged in by the herome of an old-fashioned novel, who ran away with the man of her choice, she left behind a letter stating what she had done and imploring forgiveness. The parents in this case, however, did not for give all and wind up with the usual "bless you, my children," but sent the sterner parent, in the shape of the girl's mother, after the runaway couple. She found them at a town in New York State and had an interview with the man who had carried off her daughter. What passed between them is known only to themselves, but after the interview the young man appeared as mild as a lamb and willing to allow the erring daughter to go home with her mother. The parent and child arrived here a few days ago and the latter was at once sent to Montreal, where she is now an inmate of a well known convent. It is reported she is very patient.

END OF THE LABOR CONFERENCE

A Bishop Endorses Moody and Sankey.

HEAVY REWARD FOR DYNAMITERS.

HANDSOME PRESENT TO CAPT. HUNTINGTON.

Plot to Murder Bismarck Disclosed.

CANADA.

MONTREAL, Nov. 2.—Irish parishioners of St. Eungonde will petition Apostilate Dilgate for an investigation into the conduct of the French worshippers when the Irish left the church en masse lately during a sermon by an objectionable cure.

EUROPE.

PARIS, Nov. 2.—The International labor conference has closed. Henry Broadhurst, member of the British parliament and honorary president of the conference, telegraphed his friends as follows: I think we English have done well. Everything is now on our lines. I never saw men improve so fast as our French colleagues did."

MUSCAT, Nov. 2.—Abolah Azise, brother of the sultan, besieging the city has been repulsed and fled.

PARIS, Nov. 2.—Pether Lloyd's statement is declared untrue that Orleans Princes sounded Bismarck relative to their claim to the throne of France and that Bismarck made a reply affording no hope that Germany would approve of such a course.

LONDON, Nov. 2.—Bishop Thorold of Rochester has expressed his hearty approval of Moody and Sankey's mission and urges clergymen of the established church to help it.

LONDON, Nov. 2.—John Carver Derbyshire and company, merchants in this city and Manchester, have failed. Liabilities £12,000.

Government and railway authorities offer a reward of five thousand pounds each for information leading to the arrest and conviction of persons connected with the late explosions. Physicians say dynamite must have been used to suprate the membrane of the tympanum of the people injured.

It is reported the crown prince of Portugal is about to be betrothed to Marie Villie, youngest daughter of the Emperor of Austria.

DANTZIG, Nov. 2.—A man named Poolrowsk, has been arrested at Dirichan charged with and confessing to being sent by nihilists to murder Bismarck. Poolrowsk said he was a Prussian actor and that nihilists provided him with money to come to Dantzig from Riga, and that his money had been stolen from him. An instrument for injecting morphia and a nihilist poem were found on the prisoner.

BERLIN, Nov. 2.—Bismarck has entirely regained his former strength. He is complaining, however, that he no longer possesses the capacity for work which he formerly had.

BERLIN, Nov. 2.—Bureau statistics state that the imports of grain into Germany from the beginning of July to September showed a decrease compared with the same period in 1882, while the exports showed a marked increase, especially in wheat and oats, the quantity of both being nearly double that of last year.

LONDON, Nov. 2.—The Pall Mall Gazette contains a statement that the authorities have been anonymously informed that an attempt will be made to destroy the train in which the Duke and Duchess of Connaught will travel to Dover from London on their way to India, which has caused a great sensation.

CALIFORNIA.

SAN FRANCISCO, Nov. 2.—Captain Huntington of the steamer Mexico was somewhat astonished yesterday morning on his arrival from Victoria by a communication from the government of Canada, forwarded through the department of state, and accompanied by a valuable gold watch, on which was inscribed, "Presented to Captain Thomas Huntington by the Government of Canada, as a token of appreciation for his humanity in rescuing the crew of the bark Milloa of Maitland, N. S." The rescue mentioned took place two years ago while Capt. Huntington was in command of the steamer Newberg, in the Mexican trade. He took the crew off the sinking vessel.

SAN FRANCISCO, Nov. 2.—There has been a marked decrease in the movement of freight northward since the opening of the North Pacific, and agencies which formerly did a lucrative business in handling eastern goods in transit for Portland complain of excessively dull times, while eastern freight has almost ceased. The local trade with Portland is rapidly growing less. Steamers, which before the completion of the railroad, refused freight two days before sailing, are now scarcely filled. Sailing vessels still carry small cargoes and invariably return in ballast, either to the Sound or Victoria.

Manager A. L. Hayman, who has recently returned from the east, where he has secured a large number of attractions proposes to bring all his companies hereafter by the Union and Northern Pacific by coming by the Northern Pacific. Another gain is that an extra trip as far as Portland and back is saved.

EASTERN STATES.

CLEVELAND, Ohio, Nov. 2. The great storm is abating. No serious damage is reported in this district except the stranding of the schooners Monarch and Morrel. That no life was lost is due to the heroic and skillful work of the captain and his life saving crew, who rescued the crew from the vessels; 47 men and the wife of Capt. Coleman of the Merril were all in great peril, but were brought ashore by firing lines from the howitzer to the vessels and brought them to this port.

SAN FRANCISCO, Nov. 2.—John Murphy of New York, a cabin passenger, and one of the yellow fever patients on the Panama steamer San Blas, died to-day. Deceased was a perfect stranger here, but it is said he possessed large property east.

NEW YORK, Nov. 2.—Lorrenzo Suez, a saloon passenger on the steamer Scythia, which arrived yesterday, was taken from the vessel at quarantine suffering from small-pox of aggravated type.

READING, Pa., Nov. 2.—Deputy Sheriff Strank and posse of policemen have returned from Gibraltar, five miles from here, the scene of the railroad riot, having in custody the rioters. They will have a hearing in the morning. They are all Hungarians employed on the New Schuykill branch of the Pennsylvania road. This morning contractor Barman said them off and discharged them because they were rebellious and demanded higher wages. They then got drunk and intimidated other workmen, and tried to persuade them not to work. They next attacked the laborers' quarters and tore down the shanties, and broke and destroyed everything they could lay their hands on. The posse pursued them on the road and caught up with them at Berdsboro, where all were captured. Besides one or two pistols taken from them several others carried dangerous looking knives. A charge of riot and intimidating workmen will be preferred against them. A man and woman were assaulted, the latter badly injured.

SALT LAKE, Utah, Nov. 2—Earl Granville has been petitioned to establish a consul in Denver and a vice consul in Salt Lake.

ERIE, Pa., Nov. 2.—This city is very much excited to-night over the tragic death of four young men who went across the bay to the peninsula Wednesday and have never returned. To day a sailboat was found bottom up in the bay with 3 guns and a satchel belonging to Eyster. To night a clinker boat was found near the lighthouse with the bow stove in. The bay is being dragged and a pair of rubbers have been found but no traces of the bodies. The wind was blowing a gale when they started.

BOSTON, Mass., Nov. 2.—The Eaenings of the Atchinson Topeka and Santa Fee road for 9 months ending Oct. 1st were $5,500,000 being an increase of 30 4-10th per cent. The Southern Kansas railroad for the same period, net earnings $629,000, an increase of 33 6-10th per cent.

NEW YORK, Nov. 2.—Business failures throughout the United States and Canada for the last seven days number 215.

An assignment has been filled by Simon Lauterbauch, shirt manufacturer, to Simon Hirch, giving preferences for $120,000.

CHICAGO, Nov. 2.—Congressman Finerty has received the following cablegram from A. M. Sullivan, dated London: "It is positive that none but members of the English bar will be allowed active partipation in court." This refers to the trial of O'Donnell for the murder of the informer Carey.

SECOND DISPATCH.

WAR BETWEEN FRANCE AND CHINA NOW CERTAIN.

BLACK FLAGS HAVE PLENTY OF ARTILLERY.

REINFORCEMENTS URGENTLY REQUIRED BY THE FRENCH.

Thirty Thousand Carp to be Sent to the Pacific Coast.

EUROPE.

PARIS, Nov. 2.—The black flags are well supplied with artillery. Just before leaving General Bouet heard of the arrival of a strong Chinese force with Krupp guns. If Chinese intervene he says it will be necessary to send large reinforcements. Gen. Bouet concludes by saying it is impossible to form an approximate idea of the number of black flags.

LONDON, Nov. 2.—The steamer Nottinghill from London for New York has taken refuge at Plymouth badly damaged in a collision with a German vessel. The latter vessel also put into Plymouth.

PARIS, Nov. 2.—It is reported that the first secretary of the China legation stated that war between China and France is now certain. The cabinet council discussed General Bouet's account of the French position on Red river, the measures which is advisable to adopt for strengthening their poisition, and the question of the amount of funds which may be necessary to bring the campaign to a successful issue. Nothing definitely has been decided, but the chamber of deputies will probably be asked to vote a new credit. In his account Gen. Bouet states that at least ten thousand men of arms, infantry, cavalry and artillery, will be required, especially cavalry, because of the movements of the black flags being vary rapid.

PARIS, Nov. 2.—The Chinese legation officially denies the truth of M. Irscon's telegram. Opposition newspapers charge Premier Ferry with distorting facts in order to obtain a momentary triumph and temporary malformity. During supplementary of the International Labor confefence this evening a brisk scuffle occurred between a number of delegates and some 35 anarchists, principally Italians. The latter were forcibly ejected from the hall. The principal features throughout the evening have been prominent English female orators.

PARIS, Nov. 2.—General Bouet expresses strong hopes of being sent back to Tonquin to finish the work of the expedition. He believes that Sontag and Hong How can be easily captured. Bachninh, however, which is strongly held, cannot be so easily taken.

CALIFORNIA.

SAN FRANCISCO, Nov. 2.—Cleared—British ship Don Enriquo, McAllister, Nanaimo.

The heal-and-toe walking match between Dan O'Leary and an unknown, supposed to be Hart, a colored man, for $2000, has been arranged to take place. Half the amount has been put up to-night at the office of the Pacific Life. The date of the match is not yet fixed.

The receipts in the Muldoon-Whistler wrestling match last evening were $2024. The stakes were $10,000. It is expected that another match between them as soon as the Whistler's broken shoulder bone heals will take place.

WASHINGTON, Nov. 2.—Indication for the Pacific coast, fair weather.

SAN FRANCISCO, Nov. 2.—The race between Nellie Busns and Laura at noon to day at the Bay District Park for $500, best three in five in harness, was won by Nellie Burns, she taking first, third and fourth heats.

EASTERN STATES.

NEW YORK, Nov. 2.—President Villard having offered to take the first car gratuously over the Northern Pacific road, the Fish Commissioners will meet next Tuesday and send out 30,000 carp for distribution in the North West from Wisconsin to Oregon.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skilful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to suffering humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it. dw

Bismarck's Scheme.

NEW YORK, Oct. 26.—A cable special from Berlin says: In the Reichstag to-day Prince Bismarck introduced a bill prohibiting the emigration to foreign countries of persons whose obligation to country, families, creditors and employers are unsettled. The bill is especially directed against a class of men who have hitherto found in emigration easy and effectual methods of severing onerous disagreeable family ties, breaking contracts with employers, and evading the payment of debts, etc. It is believed that, should the bill become a law, which it undoubtedly will, there will be a very perceptible decrease in the number of Germans who seek homes in foreign lands. It is said that Bismarck has been considering the advisability of such a bill for many years. He believes it will restrain, in a great measure, the spread of socialism, as it will be impossible for a known agitator to leave the country, and possessing such knowledge, they will consequently exercise a greater degree of caution in their utterances. The bill would also restrict young men who are liable to be called into the Army from emigrating to America. With this bill a law it would require a passport from the German government to enable a German to get beyond the confines of his country.

Telephoning a Dog.

The telephone has enabled aphysician, several miles away, to defect whether a child had the croup. The child's mouth was held near to the mouthpiece of the instrument, and the physician heard its cough. But more singular than this is the following story of a dog recognizing its master's voice through the telephone:

Jack is the coach dog that found his master by telephone. In some way Jack got lost and fortunately was found by one of his master's friend, who went to the office and asked by telephone if the man had lost his dog.

"Yes; where is he? was the reply.

"He is here. Suppose you call him through the telephone." The dog's ear was placed over the earpiece, and his master said: "Jack! Jack! How are you, Jack?"

Jack instantly recognized the voice and began to yelp. He licked the telephone fondly, seeming to think that his master was inside the machine.

At the other end of the line the gentleman recognized the familar barks and shortly after reached his friend's office to claim his property.

PRANG'S CHRISTMAS AND NEW YEAR'S CARDS FOR 1883 AND 1884.

THE LEADING CARDS OF THE WORLD.

We beg to announce that we have just received a full line of these artistic goods for the coming season. Intending purchasers and connoisseurs of art, as well as the general public, are invited to inspect these beautiful productions as they have taken the lead over all other cards both in England and America.

Now on view and for sale by the agents,

NEVER undertake a journey without a bottle of Dr. Fowler's Extract of Wild Strawberry in your travelling case, to guard against sudden attacks of Colic, Cholera Morbus, Diarrhœa, Sick Stomach, Sea Sickness, and troubles incident to change of climate, water, diet, etc. It is a ready and reliable relief. (23)

D. MCCRIMMON, of Lancaster, writes that he has suffered with inflammatory rheumatism, more or less, from childhood, and had tried nearly all advertised remedies with but temporary effect. Burdock Blood Bitters have radically cured him, and he authorizes us to say so. (19)

OF far more importance than the National Policy or the Irish Question is the question of restoring health when lost. The most suddenly fatal disease incident to this season are the various forms of Bowel Complaint, for all of which Dr. Fowler's Extract of Wild Strawberry is a specific. (20)

A BOON TO MEN

All those who from indiscretions, excesses or other causes are weak, unnerved, low spirited, physically drained, and unable to perform life's duties properly, can be certainly and permanently cured, without stomach medicines. Endorsed by doctors, ministers and the press. *The Medical Weekly* says: "The old plan of treating Nervous Debility, Physical Decay, &c., is wholly superseded by THE MARSTON BOLUS. Even hopeless cases assured of certain restoration to full and perfect manhood. Simple, effective, cleanly, pleasant. Send for treatise. Consultation free.

SIMMONDS' NABOB

WHISKEY

I CAN SHOW THOUSANDS OF LETTERS FROM persons from all parts of the Union and Canada to testify to its merits and the benefit it has afforded as a family tonic and tonic. And it is highly endorsed by the medical faculty as the best whiskey for dyspepsia, indigestion, &c.

Has been sold in all the Eastern States and given universal satisfaction. It is highly recommended by the faculty in all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, Chills and Fever, etc.

It is now introduced to the people of British Columbia, endorsed by the following certificates of the eminent Dr. Dana Hayes, State Assayer of Massachusetts, and Rev. H. C. Lounderback, of St. Louis, Mo., both gentlemen prominent in their professions, and which is a guarantee to all buyers of its purity and quality.

CAUTION.—None genuine unless labelled with my signature over the cork. G. SIMMONDS.

Country orders promptly attended to. Families supplied by the gallon, case or bottle.
